

**U112
 POWDER SOAP DISPENSER**

JOB #:

ITEM #:

QTY:

SPECIFICATIONS:

Tank: Fabricated of type 304 #22 gauge stainless steel, formed construction. Back and tank are fully welded to form a one piece unit. Large filler cap is tamper resistant that opens with special key. Large opening allows easy servicing.

Concealed Wall Plate: Fabricated of heavy gauge stainless steel.

Valve: Stainless steel agitator that is spring loaded and adjustable to regulate the amount of soap to be dispensed. Caking of powdered soap is avoided because moisture cannot enter dispenser.

Overall Size: 4 13/16"W x 8 1/8"H x 3 11/16"D
 121mm x 206mm x 93mm

Capacity: 32 oz powder soap

INSTALLATION:

Provide an area on wall surface at desired or specified location. Place concealed mounting plate on wall surface and transfer mounting points. Drill pilot holes and secure with proper fasteners per application. Secure tank to mounting plate by opening filler cap and tightening down lock screw. Fill tank with powder soap. Test powder for dispensing and adjust to required flow.

APPLICATION:

To provide a surface mounted stainless steel powder soap dispenser.

Form: U6014/2000
