SPECIFICATIONS:

Tank: Fabricated of translucent high impact ABS material. Tank does not have to be removed for filling.

Body & Cover: Fabricated of white high impact plastic material. Concealed lock tab prevents unit from being removed from wall plate. Large convenient filler cap allows easy servicing of dispenser.

Valve: Fabricated of high impact plastic material that will dispense most liquids and lotions. (Not pumice soaps) Large pull paddle allows easy one hand operation that requires less than 5 lbs of force to operate. When properly mounted dispenser will comply with ADA code.

Overall Size: 4 3/4" x W x 8 7/8" H x 4 1/8" D
 121mm x 226mm x 105mm

Capacity: 40 fluid oz.

INSTALLATION:

Dispenser can be mounted on a mirrored surface by using double face tape. If mounting on wall surface, transfer mounting hole dimensions from back to wall surface. Drill pilot holes and secure unit to surface with proper fasteners. Dispensing paddle cannot be any higher than 40" above finished floor to comply with ADA code.

***For best performance, use pre-mixed low concentrate solutions. Dispensers should have periodic maintenance performed to insure the life of the dispenser. Rinse out tank and valve with warm water to prevent sludge buildup.*

APPLICATION:

To provide a surface mounted soap dispenser that operates with one hand to comply with ADA code.
